BUCHAREST, via Paris, Oct. 13.—A dispatch from the Bulgarian frontier states that a declaration of war against Serbia will be posted throughout Bulgaria tonight.

By Associated Press.
LONDON, Oct. 13.—Bulgaria has declared war on Serbia says a Central News dispatch from Paris.

By Associated Press.
BERLIN, Oct. 13, via London, 3:35 p. m.—The Austro-German invasion of Serbia is making progress, the war office announced today, although the Serbians by their resistance are interfering to some extent with the advance. A village and other positions south of Belgrade have been captured.

A decision of Bulgaria, the twelve nations to enter the war, to join the ranks of the belligerents on the side of Germany. Austria and Italy were reached by the dispatch of diplomatic envoys for months between representatives of the Teutonic allies and the quadruple entente.

Bulgaria's army, while considerably smaller than that of Rumania, is well drilled and equipped. Her military strength in time of war is about 300,000 men. Since the second Balkan war, in which Bulgaria, Greece, Serbia and Montenegro, after the victory of all four nations against Turkey, Bulgaria has been isolated to a certain extent from the other Balkan states. The second war, which resulted from a dispute as to the division of territory won from Turkey, was not participated in by Rumania, which also kept out of the first Balkan conflict. Rumanian troops invaded Bulgaria, however, and forced the latter to make territorial concessions. When peace finally was restored Bulgaria was compelled to relinquish a large part of the territory she had gained in the first war.

The ill-feeling thus engendered made it doubtful whether Bulgaria would consent to enter the present war on the side of Serbia and Montenegro. The first important victory of German diplomacy was scored when Turkey was induced to cede Bulgaria territory along the line of the Devedaghi railroad. Bulgaria also is said to have been pledged efficient help in obtaining the whole of Macedonia as well as part of Dobruja.

Bulgaria ordered the mobilization of her army September 1. Bulgarian troops actually invaded Serbia about twenty-four hours before war was declared.

BULGAR INVASION
SUFFERS SETBACK

By Associated Press.
LONDON, Oct. 13.—The issue between Bulgaria and Serbia apparently has been joined squarely. It is reported unofficially that Bulgaria has declared war. Little is known here of the progress of hostilities between these combatants beyond the fact that Bulgaria has invaded Serbia and is said to have suffered reverses in the opening engagements. In Northern Serbia the Austro-German invaders are meeting with stubborn resistance.

The report from Petrograd yesterday of an important Russian success in Galicia has been confirmed officially. General Tadeusz Kosciuszko, the Austro-German front along the Straba, taking 2000 prisoners and a number of guns. If the Russian victory is as definite as indicated in the official press of hostilities between the two nations, the Austrians may be compelled to fall back on Lemberg. Such a retreat would be certain to have considerable moral effect in the Balkans, where the continued neutrality of several states is believed to be due largely to the severe reverses suffered by Russia during the summer campaign.

In the Dniestr region desperate but indecisive fighting continues, with the offensive shifting frequently from one side to the other. Field Marshal von Hindenburg evidently intends to continue his attack, as it is reported reinforcements for his army are on the way to the Dniestr front.

From the western front come reports bearing evidence that the French are resuming the offensive in the champagne. Paris claims slow

M. DELCASSE RESIGNS
OFFICE TO VIVIANI

By Associated Press.
PARIS, Oct. 13, 1:15 p. m.—Foreign Minister Delcasse resigned today. His resignation was accepted.

Premier Viviani announced the resignation of M. Delcasse and its acceptance at a meeting of the cabinet council today, presided over by the premier. It was decided that the premier should take over the portfolio of foreign affairs with the council of ministers.

After an exciting scene in the Chamber of Deputies, Premier Viviani demanded a vote of confidence.

Select Jury to Try
Assemblyman Gelder

BERKELEY, Oct. 13.—First steps in choosing the jury for the trial of Assemblyman George Gelder, being prosecuted here on the charge of teaching down a diphtheria quarantine sign placed on his premises by the health office, began today in Judge Edgar's court. Assistant District Attorney W. H. Satterwhite represented the prosecution and J. M. Boyer, the defendant. Dr. J. J. Benton, health officer, is the complaining witness.

Gelder declared that the case would be carried to the Supreme Court, if necessary, that the state and city health officers were exceeding their duties, were too officious and that he would continue his legal fight until his right to personal liberty was established.

Gelder's home was placarded by the health office, and he tore the placard down. His children, who had caused the quarantine, he said, were well and in school at the time.

Austria Appeals to
Her People for Gold

By Associated Press.
ZURICH, Switzerland, via London, Oct. 13.—The Austrian government has issued an appeal to the public to take all gold and silver jewelry, plate and other articles made of these metals to the mint for conversion to coins or to the treasury for strengthening the gold reserve and getting payment abroad for goods for military purposes is given as the reasons for the appeal. Persons who surrender gold or silver will receive full payment in bank notes and certificates of honor for their patriotic acts.

War Adds 2,000,000
to Europe's Cripples

By Associated Press.
NEW YORK, Oct. 13.—There are now 2,000,000 men in Europe who have suffered the loss of limbs or faculties, or both, as a result of injury in the war, according to Frank E. Gibbreth of Providence, R. I. He has just returned from Germany, where he has been studying methods for giving employment to cripples.

Gibbreth has been requested by Germany to instruct a corps of teachers how to enable crippled fighting men to become productive members of society after the war.

Half-Stocks Are
Quoted on Street

By Associated Press.
NEW YORK, Oct. 13.—Beginning today the Stock Exchange will quote half stocks, of the shares whose par value is \$50, on the dollar basis, instead of the percentage basis as heretofore. Chief among these stocks are the several classes of Reading Railroad, Delaware, Lackawanna and Western Railroad, Pennsylvania Railroad, Westinghouse Electric, Westinghouse Manufacturing, Philadelphia Company and such inactive stocks as Delaware, Lackawanna and Western Railroad, together with its subsidiary, the Morris and Essex Railroad.

French Consulate Is
Violated by Turks

PARIS, Oct. 13, 2:45 p. m.—The American embassy informed the French foreign office that despite the protests and opposition of the American consul at Beirut, Syria, the French consulate in that city to which American seals had been applied, had been violated by the Turkish authorities, who began an examination of the consulate archives.

Cotton Futures Act
Held Unconstitutional

By Associated Press.
NEW YORK, Oct. 13.—Federal Judge Hugh today banned down a decision declaring unconstitutional the law known as the cotton futures act. He rendered judgment in favor of Daniel T. Hubbard and others in a suit to recover damages for assessments made and collected by the collector of internal revenues.

Asks Sultan to Tell
His Armenian Plan

By Associated Press.
ROME, Oct. 13, 5:50 p. m.—via Paris, Oct. 13, 4:25 a. m.—The Vatican has urged Monsignor Volic, apostolic delegate at Constantinople, to obtain from the Sultan of Turkey a reply to the letter of Pope Benedict, interceding for the Armenians, which was sent several weeks ago.

PETROGRAD, Oct. 13, 11 a. m., via London, 4:30 p. m.—Another striking victory has been won by the Russians on the southern front in Eastern Galicia. They have pierced the last line of Austrian defenses on the Stripa river and stormed one of the strongest points on the Austro-German right flank.

By Associated Press.
STOCKHOLM (via London), Oct. 13.—Activity of British submarines in the Southern Baltic has virtually paralyzed what hitherto had been a lively mercantile trade between Sweden and Germany. All along the Swedish coast steamers frequently have been reported in the lanes followed by German ships.

Within the last twenty-four hours five vessels of considerable tonnage have been sunk. They were the Lulea, Germania, Nicodemus, Guttrune and one other, the name of which is not yet known. The Germania was chased ashore and shot at from the submarine E-19. When the crew returned it was found she had been boarded and the ship and partly demolished by dynamite.

There were reports tonight of German ships torpedoed. The ferries of the Swedish state railways from Trollhatten to Gothenburg have been replaced by reserve steamers.

By Associated Press.
LONDON, Oct. 13.—A dispatch to Reuters' Telegram Company from Karlakrona, Sweden, says that the German steamer Direktor-Reppen, 1613 tons, of Stettin, has been torpedoed by a British submarine. The fate of the crew is not known.

By Associated Press.
COPENHAGEN, Oct. 13, via London, 12:25 p. m.—Another German liner has been destroyed as a result of the British submarine campaign in the Baltic, undertaken to prevent Germany from receiving supplies from Scandinavia. The German steamer Walter Leonhardt, of 1261 tons gross, was blown up and sunk in the Baltic yesterday by a British submarine after her crew had been permitted to take to the small boats.

New Haven Directors'
Trial Is Commenced

By Associated Press.
NEW HAVEN, Oct. 13.—The trial of the directors and officers of the New York, New Haven and Hartford Railroad Company, charged with conspiracy to monopolize the traffic of New England, was opened today. Government counsel failed to mention the name of George Miller, one of the twelve defendants cited to appear.

Miller is 83 years old, and it was explained that the government would press the case against him on account of his infirmities, due to age.

The list of defendants includes some of the foremost financiers in the country. The defendants are: David Rockefeller, Lewis Cass Leavitt, D. Newton Barney, Robert W. Taft, A. Heaton Robertson, Edward D. Robbins, James S. Hemmingsway, Charles F. Brooks, Charles M. Pratt, Henry K. Mahan and Frederick Brewster.

Greece's Next Step
Awaited by Allies

By Associated Press.
PARIS, Oct. 13, 5 a. m.—"What will Greece do now?" is a question which is being asked on all sides here. Her treaty with Serbia expressly stipulates that if one of the contracting parties, already engaged in war against a third power, is attacked by Bulgaria as well, the allied general staffs of Greece and Serbia must consult with a view of immediate action.

The next step, therefore, it is maintained here, would rest with the Greek general staff, whose chief is King Constantine. That the king will consent to depart from the policy of armed neutrality is doubted here, although it is believed that the army of 60,000 men against Serbia,

Carranza General Pre-
paring for Hard
Siege

By Associated Press.
DOUGLAS, Ariz., Oct. 13.—General P. E. Calles, Carranza commander in Sonora, has abandoned attempts to check the influx of Villa troops, according to reports, and today is concentrating all his resources at Agua Prieta, Sonora, across the border from here, apparently for a siege.

Several sources reported today many Villa accessions about Bavispe, 110 miles southeast of here, where the Villa force now numbers about 5000.

By Associated Press.
EL PASO, Tex., Oct. 13.—An attack upon Agua Prieta, the only remaining Carranza garrison in Sonora, is in preparation, according to reports received last night by Villa officials in Juarez. The agreement effected some months ago at Noca through General Hugh L. Scott, American chief of staff, providing for the neutrality of border points, will be ignored, it was stated.

The forces of General P. Elias Calles, it was stated, would be attacked by an overwhelming Villa force, and might attack the American border was predicted. General Villa is reported still at Casas Grandes.

POWDER HELD UP
AT MEXICAN LINE

By Associated Press.
EL PASO, Tex., Oct. 13.—Customs officials refused to permit a shipment of powder to cross the border today. This was the first indication that an embargo on the exportation of arms and ammunition is in effect. It was understood the shipment was stopped by order of General J. J. Pershing, commanding at Fort Bliss, co-operating with the customs authorities.

By Associated Press.
EL PASO, Tex., Oct. 13.—Official reports from Chihuahua received at Juarez, that General Canuto Reyes, heading an expeditionary force of Villa troops, has attacked the rear guard of General Obregon and forced it back upon Torreon. Fighting in the neighborhood of Tulaca also was reported.

Japan Considering
Entrance Into War

By Associated Press.
TOKYO, Oct. 13.—Bulgaria's official position in the war, and advice received here from London that British opinion, in some quarters at least, favors the dispatch of Japanese troops to the Balkans, have suddenly reopened the question in Tokyo of what Japan's future course will be. There is a strong impression here that the return from Paris today of Baron Kikujiro Ishai, the recently appointed minister of foreign affairs, will bring a decision on whether the latest developments justify a change in Japan's decision not to send an army to aid her allies, and the likelihood of dispatching troops to the Balkan theater.

Greece Frigid to
Pleading of Serbia

By Associated Press.
ATHENS, Oct. 13, 5:40 a. m.—The Athens correspondent of the Mail says he has learned from a diplomatic source that the Serbian government, having raised at Athens the question of Greece being called upon to give her support under the terms of the treaty of alliance, the Greek government replied that the present aggressive action of Bulgaria had not a purely Balkan character, and therefore did not come within the provisions of the Greco-Serbian treaty.

Chinese Gunmen Get
\$750 Check and Coin

SAN FRANCISCO, Oct. 13.—Jew Tick, a Marsville merchant, endorsed a check for \$750 which he intended to cash today before leaving his room at the New China Hotel in the Oriental quarter at 7 o'clock this morning. Ten minutes later, as he passed the corner of Ross and Washington streets, two Chinese in American dress carrying guns, held him up and took the check and \$750 in cash.

Bulgarians Mine
Banks of Danube

By Associated Press.
LONDON, Oct. 13.—According to the Times Bucharest correspondent, the civil population of the town of Vidin, on the Danube, in northwestern Bulgaria, has been ordered to leave. The Bulgarian bank of the Danube opposite the Rumanian frontier, the correspondent says, has been mined and at Ruse, on the Bulgarian side of the Danube, to the south of Bucharest, trenches are being dug with feverish haste by forced labor.

LOCALS AID BOSTON

Once more St. Mary's College representatives came to the front this afternoon in Philadelphia. Harry Hooper and Duffy Lewis, winning the world's championship for Boston.

Harry Hooper, for three years a student at St. Mary's College, drove out two home runs and one single, and was hit by a pitched ball another time.

Duffy Lewis of Alameda, once a member of the Oakland club, and also a St. Mary's student, drove out a home run in the eighth inning that scored Gainer ahead of him, tied up the count, and broke down the Philadelphia defense.

PHILADELPHIA, Oct. 13.—The Boston Americans are the world's champions of 1915. The Red Sox defeated the Philadelphia Nationals by a score of 5 to 4 here today in a game which was nip and tuck until the finish. Twice the Philadelphia took the lead only to be tied, and Harry Hooper finally clinched it for the American League champions by smashing a home run into the right center field stands.

It was Hooper's big black bludgeon that put the Red Sox across as winners, the California boy smashing out two home runs during the game. Duffy Lewis was another hero for Boston, his home run clout in the eighth inning sending in a run ahead of him and tying the score when it looked to be a Philadelphia victory.

The official figures for attendance and receipts:

Attendance	20,306
Receipts	\$52,029.00
Commission's share	\$ 5,202.90
Club's share	\$46,826.10
Each club	\$23,413.05

Philadelphia fans played no favorites today and the Boston Club received a friendly greeting when Manager Carrigan led his men on to the field. The players felt the warm sun and went about their practice with a snap of a team playing in midsummer form.

"Another hot day like this and 'Smoker' Wood will be fit to pitch," said Manager Carrigan. "But I may cross all the wise ones today and send in 'Baby' Ruth. He's got plenty of stuff on the ball and the carpenter's just built that right field fence for Ruth to pop his long drives over."

Manager Morgan, however, expected better to be sent against his men for the direction of the right hander. McMillan, Tincup and Demaree, to give the home folks their battling practice. Mays went to the rubber and shot the ball over the pan while the Red Sox brandished their war clubs in battling practice. When the players commenced their fielding work every seat in the backfield stands was filled.

TRAIN IS LATE.
A poor steaming engine of the special train bearing the members of the two ball teams delayed their arrival in the city from 9 o'clock until shortly after noon.

The box occupied last Saturday for President Wilson was decorated today for Governor Brownson (Pennsylvania). The box was decorated with flags, and was faster than the ground in Boston. The rainy park seemed "drier than ever after two days" of play at Braves Field.

WEATHER IS FINE.
Weather prospects for today were all that could be desired, both from the standpoint of the players and spectators. Improved weather conditions also favored the bleachers who began to form in line around the park and before noon yesterday. By midnight more than a hundred persons were in line. They had brought all sorts of devices for warmth and comfort. Boxes, chairs and benches were enough to keep on while the entire press box was carried over a rough hammock set on an iron frame-work. With an overcoat and blankets to keep out the cold night air was the way of many of those not so fortunate. When the bleachers were opened,

WHITNEY HEIRS LOSE WILL FIGHT

Trust Clause Upheld in Contest for Bulk of Share in Estate.

SAN FRANCISCO, Oct. 12.—The efforts of J. Parker Whitney and his heirs, Helen Beryl Whitney Wheeler, to have the trust clause in the will of their late father, J. Parker Whitney, nullified, failed today in the Superior Court. Judge Coffey sustained a demurrer introduced by the trustees to an action brought by the two children. The complainants are seeking to gain possession of their share of the estate, amounting to \$2,500,000. By his will their father had provided them with a legacy of \$300 a month for the rest of their lives. They were not, however, to obtain the principal. By the terms of the testament half of the estate was left to the wife, Lucy Anne Whitney, and the remaining half to three children—Vincent, J. Parker and Mrs. Wheeler. Vincent was to receive \$500 a month, but to get the bulk of the estate, which was valued at \$3,000,000. No such provision was made in the case of the other two children and the contest followed. Judge Coffey today sustained the trust clause. The property consists of good lands, considerable land here and in Maine and Colorado. J. Parker Whitney was first married to Miss Daisy Parrot, the wedding being a society affair, as both bride and groom came from distinguished California families. Subsequently Mrs. Whitney had a second marriage, and although there were rumors of a reconciliation, it was never forthcoming and Whitney married again. Whitney was given much unpleasant notice when he was arrested on charges of bigamy, preferred by Miss Genevieve Hannon, an actress. He paid a large fine in the Federal Court.

CLAIMS TO BE HEIR OF MURDERED SUNOL MAN

A woman claiming to be a niece of the late John Springer, (one agent), who was murdered near San Francisco several months ago, today telephoned the sheriff's office and announced that she had come to California from Germany to claim the estate of her uncle. To Deputy Sheriff Samuel Vandervoort she refused to give her name, saying that she would call on him later in the day. Springer, so far as known, left no heirs. He was the owner of a small ranch near Sunol and is believed to have left quite a sum of money. The estate is now in the hands of the public administrator, H. E. McManis.

SAYS WIFE PRAYED THAT HE WOULD DIE

Frank A. Fritz filed suit in the superior court today asking a divorce from Emma V. Fritz on the allegation that she had deserted him after thirty-four years of married life. They were married in 1879, and he avers that the wife had deserted him on August 20 of last year. The couple have no children, but Fritz asks to be awarded the custody of an adopted son, Clarence A. Fritz, ten years of age. Carl G. Friberg filed a divorce action against Rose Friberg today, alleging that she prayed fervently that he would die. She also called him improper names in public, he says, and had deserted him and lived with another man. They were married in 1912. Mike Greenberg filed suit against Esther Greenberg, alleging desertion.

Justices to Decide if Income Continues

WASHINGTON, Oct. 12.—An annual revenue to the government of \$22,000,000 depends upon the outcome of arguments today before the Supreme Court of the constitutionality of the income tax. The first cases to reach the court under the new system of federal taxation and the first involving the construction of the Sixteenth Amendment were at issue.

Attacking the law were corporations objecting to the law as an unconstitutional tax on property, and individuals, attacking principally the additional tax on income in excess of \$20,000. The main defense of the law has been prepared by the government.

New Venire Reports in Schmidt Trial

LOS ANGELES, Oct. 12.—A new venire of talesmen reported to Judge Frank R. Willis, when the trial of Matthew A. Schmidt, charged with the murder of a woman, was resumed here today. The prosecution also was expected to make formal request that 12 jurors be impaneled to hear the case.

Both the prosecution and the defense have agreed to the selection of an extra juror, who will serve as a substitute in case of a death. Thus far four permanent jurors have been obtained, with five other talesmen passed for cause.

Unless some unexpected delay occurs, the first witnesses in the trial probably will be called early next week.

WATER FRONT FIGHT ON

Not Quitting While Alive, Says Mayor

"When I quit on anything I have started, I will be when I am dead," declared Mayor John L. Davis today, after an afternoon session of the city council. He was speaking of the fight on the waterfront, which has been going on since the city council passed a resolution to improve the waterfront.

The waterfront fight is still going on, and Mayor Davis is not quitting while he is alive. He is determined to see that the waterfront is improved, and that the city is a more attractive place.

Operation Makes New Record for Surgery

PARIS, Oct. 12.—An operation, undertaken by a French surgeon, for the removal of the spleen of a shell embedded in the whole width of the vertebral canal and suturing of the completely severed spinal cord has been successfully performed, by Dr. Emil Giron.

In communicating the details of his achievement to the Academy of Medicine, Dr. Giron said he had undergone his operation for several years, and that he was now able to move his legs, his sensory powers were gradually returning, and the wound, which ordinarily should have killed the man, was healing. The patient, the doctor added, was now entirely without fever.

PREPAREDNESS IS ILLINOIS THEME

Club From Prairie State Hears
Address on Strengthen-
ing of Navy.

Discounting what he termed the fallacy of the suggestion that the Pacific Coast may suffer attack from an Oriental nation, State Senator W. Paul Pierce of Illinois at a reception tendered by the Illinois Society to Starr King hall, expressed the opinion that the United States after the war would stand in little danger of aggression. Better preparedness, he thought, should be the object of the government to ensure safety.

Lieutenant Governor O'Hara of Illinois and Mrs. O'Hara, State Senator Pierce, member of the Illinois commission, and Guy Clamer, resident commissioner of the Illinois building were the guests of honor at the Illinois Society on "officers' night" Monday evening. The affair was the thirteenth anniversary of the organization of the society and took the form of a home coming party.

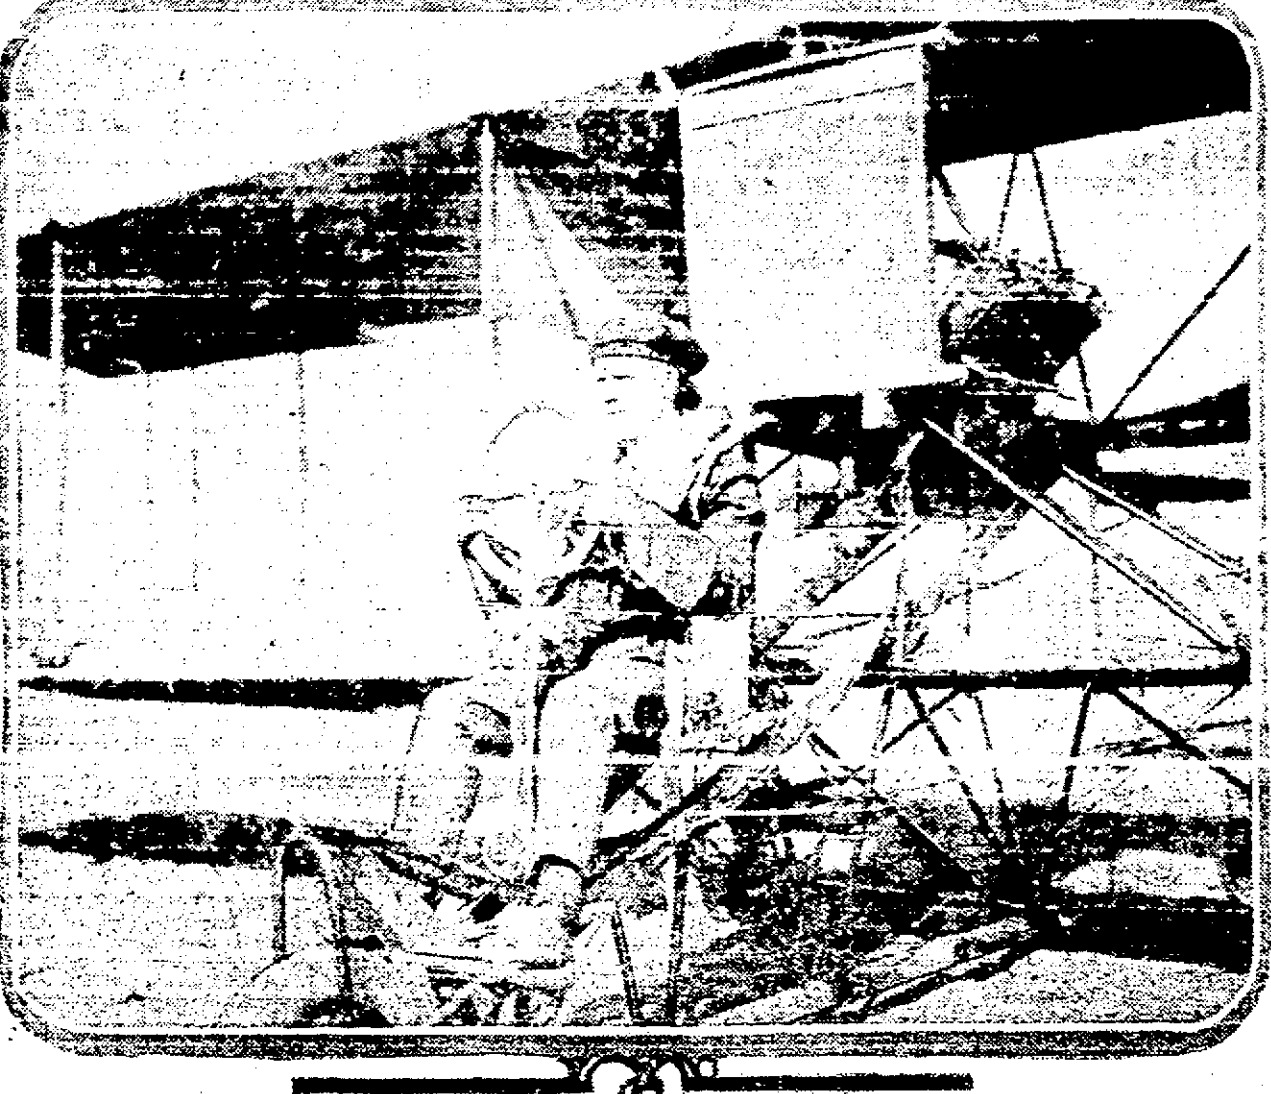

Bright colored butterflies fluttering in mid air, gay autumnal coloring of the woodbine, magnolia and ivy proved a charming setting for the affair.

Lieutenant Governor O'Hara in his address alluded to the struggle for advancement in the ranks of Illinois from the earliest days.

R. W. Sweet, president of Illinois Society, paid tribute to the guests of honor and presented each with the official badge of the society. Rev. Thomas A. Boyer, pastor of the Christian Church at Richmond, in his remarks urged every citizen to keep up with the present great strides of advancement being made everywhere for the benefit of the human race.

The other part of the program, in charge of the vice-president, Mrs. Viola R. Murphy, included vocal solos by Miss Ruth Peterson, a reading by Miss Elizabeth Bishop, a pupil of Mrs. Ira N. Allen, and the rendering of the song "Illinois," by F. L. Vought.

CAL. FRUIT CROP RICHER THAN MINERAL PRODUCTS

NEW YORK, Oct. 12. — How California had increased its fruit shipments from 2000 carloads in 1914 to 50,000 carloads now, was described by G. Harold Powell, general manager of the California Fruit Growers' Exchange, in an address before the Fruit Club at Delmonico's a few days ago.

"The value of the fruit crop in California exceeds that of all the mineral products of the state by more than a million dollars," declared Powell. "In fact, in figures, the total valuation of the fruit is \$1,000,000,000."

There is \$200,000,000 invested in California's citrus industry. Thirteen to fifteen thousand families are living on land worth \$1000 an acre and 150,000 persons are directly and indirectly supported by the industry.

"The problem of the California fruit grower was one of distribution," he continued. "With our big market, New York, 2500 miles away we had to do some very careful planning to get our oranges into the far away markets safely and in good condition. The fruit grower found that he could not meet the situation effectively and the California Fruit Growers' Exchange was formed for the purpose of economical handling. The exchange is entirely a non-profit organization, the work of marketing California oranges and lemons at cost so that all money received in excess of this cost goes to the grower himself."

According to the speaker 55 per cent of the growers of oranges, lemons and grape fruit in California are members of the Exchange. About 30 per cent of the product is sold at auction in the big markets of the east.

"Where does your money go when you buy 11 worth of oranges?" Powell asked. "The answer is, about one-third of the dollar goes to cover the cost of getting the fruit to the consumer. The balance is divided among the grower, the exchange cost 15 per cent, and 20 per cent goes for transportation charges."

Nations advertising in newspaper and magazines has kept consumer demand in step with the great increase in the fruit crop, the speaker asserted.

TRUSTED WRONG LODGER, DECLARES LANDLADY

J. W. Henderson, alias "Jimmy Warren," wanted in Oakland and San Diego and other cities for passing bad checks, is in the Oakland city jail and will be tried here on a charge of felony embezzlement on the complaint of Mrs. Maude E. Moore, 337 Nineteenth street.

Henderson was captured by Inspector Rodie A. Wallman in front of a saloon at Mission and Third streets in San Francisco last night. He has admitted to the police that he passed checks in Oakland and San Diego.

One of the checks cashed in Oakland was passed on Jackson Bros. drug store, owned by Commissioner F. E. Jackson and his brother. The check was for \$100. Henderson told the police that he had been going from bad to worse for the last 18 months, since having trouble with his wife. He was formerly a contractor.

According to Mrs. Moore, she entrusted Henderson with \$100 of her money when he was a lodger in the house. She was going out for the evening and asked him to take charge of the money. When she returned home, Henderson had taken his suitcase and left.

5 Women Avoid Operations

For years we have been stating in the newspapers of the country that a great many women have escaped serious operations by taking Lydia E. Pinkham's Vegetable Compound, and it is true.

We are permitted to publish in this announcement extracts from the letters of five women. All have been recently received unsolicited. Could any evidence be more convincing?

1. HODGSON, ME.—"I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached and I was so nervous I could not sleep, and I thought I never would be any better until I submitted to an operation, but I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman."—Mrs. HAYWARD SOWERS, Hodgdon, Me.
2. SHELLEYVILLE, KY.—"I suffered from a severe female trouble. My right side hurt me badly—it was finally decided that I must be operated upon. When my husband learned this he got a bottle of Lydia E. Pinkham's Vegetable Compound for me, and after taking it a few days I got better and continued to improve until I am now well."—Mrs. MOLLIE SMITH, R.F.D., Shelbyville, Ky.
3. HANOVER, PA.—"The doctor advised a severe operation, but my husband got me Lydia E. Pinkham's Vegetable Compound and I experienced great relief in a short time. Now I feel like a new person and can do a hard day's work and not mind it."—Mrs. ANA WILT, 203 Walnut St., Hanover, Pa.
4. DECATUR, ILL.—"I was sick in bed and three of the best physicians said I would have to be taken to the hospital for an operation as I had something growing in my left side. I refused to submit to the operation and took Lydia E. Pinkham's Vegetable Compound—and it worked a miracle in my case, and I tell other women what it has done for me."—Mrs. LUCIA A. GRISWOLD, 2437 East William Street, Decatur, Ill.
5. CLEVELAND, OHIO.—"I was very irregular and for several years my side pained me so that I expected to have to undergo an operation. Doctors said they knew of nothing that would help me. I took Lydia E. Pinkham's Vegetable Compound and I became regular and free from pain. I am thankful for such a good medicine and will always give it the highest praise."—Mrs. C. H. GARRITY, 1668 Constant St., Cleveland, O.

Valuable Merchandise Orders for Prizes

Look up!
Watch the sky!
It's going to rain money!
It's worth a stiff neck—if you get one!

Harvey Crawford, the aviator, is going to enact the role of a money-bearing cloud. Tomorrow, between the hours of 1 and 2 o'clock in the afternoon, he will soar high above Oakland in his aeroplane, dropping from the sky 10,000 little cards—messages from the sky—calling attention of the crowds below to the fact that it's "Dress-Up Week."

On the backs of some of these cards will be orders—as good as cash—for certain sums, on certain local merchants. Any one of the pink cards may be worth anywhere from \$1 to \$5. Oakland merchants, who have been active in the celebration of "Dress-Up Week Day," which is being observed nationally in honor of the nation's returning prosperity, have vied with each other in the offering of the prizes. Among the gifts to be dropped from the clouds will be the following:

- Ten \$1.00 orders for merchandise on Kahn's.
- Ten \$1.00 orders for merchandise on Capwell's.
- Ten \$1.00 orders for merchandise on Taft & Penney's.
- Ten \$1.00 orders on Abrahamson's.
- Five \$1.00 orders on Money-Back Smith.
- Four \$1.00 orders on Lee-Berthillon.
- Ten \$1.00 orders on S. N. Wood.
- Ten \$1.00 orders on Gerwin's Millinery.
- Two \$5.00 credit orders for suits on A. J. Simmonds.
- Ten \$5.00 credit orders on Byron Rutley for suits.
- Ten \$1.00 merchandise orders on Roos Brothers.
- Ten \$1.00 orders for merchandise on Houts & Ramage.
- Ten \$1.00 merchandise orders on Breuners.
- Fifty admissions Oakland Photo Theater.
- Three six-months' subscriptions to The Tribune.
- Three six-months' subscription to The Equivator.

The aviator, one of the most noted of the students of aviation that Silas Christoferson has taught, is enthusiastic over the project, and readily consented to assist the merchants in their unique method of celebrating the week. The little cards to be dropped will contain the orders, these to be printed on the backs of the "Dress-Up Week" announcements.

"A message from the Skies," reads the announcement, "Oakland Dress-Up Week, October 11 to 16."

The reverse side of the card will bear the nature of the prize. These will be fully two hundred of these among the cards that will flutter earthward. Any card may contain a prize. Every card will have the "Dress-Up Week" announcement.

These orders will be good at the stores offering the prizes if presented during "Dress-Up Week." They will be useless after the week, so should be used immediately.

Harvey Crawford, the only aviator that ever flew over Mt. Rainier and the holder of the longest over-city flight in 1912, flying over Oakland, Alameda, Berkeley and San Francisco and twice across the bay in one flight. He will fly over Oakland's business center in the same aeroplane that he made these records in and he will use for the first time his own Crawford design engine. It will fly tomorrow between the hours of 1 and 2 o'clock over Oakland's business center.

STOLE SIX CENTS; MUST SERVE SIX-MONTH TERM

SAN FRANCISCO, Oct. 12.—George Kelley was sentenced to jail for six months yesterday for stealing six cents. This high crime took place in San Mateo county and justice was swift.

Kelley was arrested by Chief of Police McComb. He was accused of having held up John Buck, a laborer, Sunday identified the six cents and Kelley. Although it was a holiday, Town Recorder Edwin, convinced court. The charge was reduced to petit larceny. Kelley was convicted and sentenced to six months.

DRESS FOR UNDERTAKERS.

SAN FRANCISCO, Oct. 12.—The correct dress for undertakers this fall and winter should be neat, but not gaudy, according to Fred E. Pierce, of Los Angeles, who spoke before the 500 delegates to the National Convention of Funeral Directors yesterday at the Civic Auditorium. A coarse and vulgar display of jewelry is also much to be deplored. Pierce pointed out while those undertakers who go into the business solely for financial gain were denounced as "misfits."

CRUSHED BENEATH OVERTURNED AUTO

Joy Ride Party in Hired Jitney
Comes to Grief on Beach
Drive.

SAN FRANCISCO, Oct. 12.—Three men were injured, one of them probably fatally, when a five-passenger automobile turned turtle at Thirty-third avenue and Street Boulevard at 4 o'clock this morning. Those hurt were:

W. RILEY, mechanic, Eighteenth avenue and Ortega street, possible fractured skull, internal injuries, several fractured ribs, abrasions, entire body suffering from shock, may die.

WILLIAM DE LUCCA, baker, 157 Sixty street, contusions of both eyes, suffering from shock.

LEONARD JOHNSON, lithographer, 237 Pierce street, fractured nose, abrasions of the body.

The machine bearing the license number 133,201 was hired at Chestnut and Fillmore street in front of the Exposition grounds by the three men at 3:30 a. m. The machine was a jitney and the driver agreed to take his passengers on a little joy ride to the beach. Several stops were made along the boulevard and the party was returning when at the turn at Street and Thirty-third, the car turned completely over.

Riley was crushed under the machine. The other two men including the driver, were thrown out. They succeeded in lifting the car and rescuing Riley. A farmer, bound into town with a load of vegetables, lent his aid, and picking up the three men, took them to Nineteenth avenue and Ortega streets, where an ambulance from the Park Hospital met them. The driver of the car disappeared.

It was at first thought by the police that the machine might have been stolen but the passengers told the story of hiring it and as the driver was missing there was no attempt to dispatch them. The license number bears the name of

First Rain of Season May Fall in Oakland

SAN FRANCISCO, Oct. 12.—The first rain of the autumn may be on the way to Oakland and the other bay cities, according to officials of the United States weather bureau, who this morning were busy watching the performance of a large storm centered off the northern coast. There has been a good-sized precipitation at the Pacific shores of Oregon and Washington and it is not unlikely that the storm will be borne in this direction. As this is the first storm of the year, however, and as it might be said to be performing its peculiar antics, the officials cannot be sure whether or not it will come to California. Nevertheless a warning has been sent out in the form of a forecast for unsettled conditions and probable showers. The wind has shifted to the southwest.

Valuable Church Vessel Stolen as Edifice Burns

By Associated Press.
PORTLAND, Ore., Oct. 12.—A gold and silver ciborium, set with a large diamond and valued at \$2000, was stolen from Father Schoener's church yesterday, according to a report to the city detectives. Father Schoener is said to have carried the vessel out with other valuables and to have left it near the burning building. The ciborium was part of the exhibit of the German government at the world's fair in Chicago, 1893. It was later presented to Father Schoener.

DEBATORS TO MEET.

SAN FRANCISCO, Oct. 12.—More than 100 delegates are pledged to attend the fifth semi-annual convention of the Debating League of California, which will open next Saturday morning in the auditorium of the Lowell High school. Among the high schools which will be represented are the following: Humboldt, Evening High school, Lowell, Lick, Willamette, Lux, San Rafael, High School of Commerce and Polytechnic.

Necklundan, 244 Fulton street. The occupant of the address said that a man of that name had formerly resided there.

FORCED BY LOVE TO DRINK POISON

Police Seek Tailor, Accused by
Girl With Whom He
Quarreled.

SAN FRANCISCO, Oct. 12.—Florence Valere, 25 years old, and living at 1173 Union street, is suffering from chloroform of mercury poisoning at the Central Emergency Hospital this morning. The police are searching the Presidio for Frank Falek, a tailor of the 15th company coast artillery, who the woman says compelled her to swallow what may be a fatal draught.

According to the details of the affair given by the woman to the police the two had been living at the Union street house. A quarrel early this morning resulted in bitter words on both sides following which Miss Valere charges Falek compelled her to swallow the poison.

It is believed that an antidote was administered in time to save the woman's life, although the treacherous nature of the poison leaves the physician in doubt as to the outcome.

Detective Sergeant William Proff searched throughout the night for Falek and was waiting for him this morning at 7:30 at Fort Winfield Scott, where he was supposed to report. He did not appear on time and the police are scouring the reservation for him.

MARSHALL NEVER A CANDIDATE, HE SAYS

PHOENIX, Ariz., Oct. 12.—Answering the public statement that President Wilson had expressed a desire that some other candidate than the incumbent be selected for his next running mate, Vice President Marshall, who is here with Mrs. Marshall visiting the latter's parents, said today:

"I don't believe the President said any such thing. My attitude is well known. I never was a candidate for any office in my life. I am for the President's re-nomination. I also think the convention should nominate a Vice President. If there is any coalition between the President of the United States and myself, I have never observed it. There has never been any suggestion that I was not heartily in favor of his policies."

STANDARD OIL COMPANY

INCORPORATED IN CALIFORNIA
STANDARD OIL BUILDING
SAN FRANCISCO, CAL.
SUBURBAN

M. R. KINGSBURY,
VICE PRESIDENT.

Mr. D. G. Scofield, President,
Standard Oil Company,
San Francisco, California.

October 7, 1915.

Dear Mr. Scofield:

I want to call your attention to the later reports of the investigation following the recent disaster at Ardmore, Okla. It develops now that the tank car which caused the explosion and resulted in the death of more than fifty people was filled with gasoline made by compressing natural gas, and known as compressor gasoline, not a straight run refinery product like our Red Crown gasoline, which, as you know, is a pure product of crude oil distillation.

Compressor gasoline is very unstable and very "gassy," and the vapors ignite so readily that there is always danger of fire or explosion in handling it. The Ardmore shipment, it seems, was intended to be mixed with low gravity gasoline in the same manner as is done by some manufacturers in California, and the product is known to the trade as a blended or mixed gasoline and is offered quite extensively to motorists in some sections. Even when compressor gasoline is blended in this manner it is still very "gassy" and dangerous.

This unfortunate disaster at Ardmore has clearly pointed out the wisdom of the action of our Board of Directors a little over a year ago in deciding to dismantle the compressor gasoline plant which we installed at Newhall, California, with a view to determining whether it was safe to compress our gas there and ship the resulting gasoline to our refinery for stabilizing by re-running. At that time we published in the Standard Oil Bulletin of July, 1914, a statement announcing the discontinuance of this plant and the reasons therefor, and I attach the clipping hereto.

I believe, in justice to the public and to ourselves, we should take some means of informing motorists and all those handling it the risk they are running in using this dangerous, compressor gasoline.

Very truly yours,

L. B. Pinkham

Compressor Plant Dismantled
ABOUT a year ago this Company decided to install in the oil fields at Newhall (Pico Canyon), Cal., a compressor for manufacturing gasoline from natural gas. A short time after that a complete plant was installed and in working order. Many tests and experiments have been made with the gasoline produced by this plant.

compressor to determine, if possible, some safe means of transporting it to the Company's refinery at El Segundo for re-running. Owing to the great volatility and high vapor tension test of casing-head gasoline produced from California natural gas, which makes the product at all times a dangerous one to handle, the Company has decided to abandon the prospect of making gasoline from natural gas in California and has dismantled its plant.

ROLE OF POLITICAL PARTIES IN OUR HISTORY.

The great patriots and statesmen of our nation all lived in partisanship. Franklin, Washington, Adams, Jefferson were party men and under their guidance this greatest of all governments was safely launched. Webster and Clay were partisans of the strong, and working through the political parties their time shaped the fiscal policies of the nation. Lincoln, Sumner, Seward, Chase and Grant, leaders of the republican party, carried the country safely through the days of the rebellion, and Cleveland, McKinley, Taft and Wilson, supported by their respective parties, have written into the federal statutes wise economic laws for the benefit of the people.

Two great parties, Democratic and Republican, kept steady pace with the demands and needs of the country. They have met, one or the other of them, every emergency, and there has been a steady, forward and onward march of political progress and achievement. Partisanship during their existence has been very pronounced, the citizenship of the country has been made better by it. No one will today claim that national parties are essential to the very existence of the nation. And if we are, then it is wise to do any act which will weaken or destroy their usefulness? This is the question the electors are now called upon to decide.

For all, a party is but a political agency, an instrument of the people through which they fashion the government under which they live. A most important agency and one not lightly to be destroyed with nothing better to take its place.

A national party gets its life and draws its inspiration from the party organizations existing in the several states. It is represented by a national committee whose membership is composed of a committee appointed in each state in the Union. The national convention is made up of delegates appointed or elected by the state party organizations.

Therefore, if you destroy partisanship within the state, you destroy the very foundation of the national party, you destroy the source from whence it gets its strength and very existence. It is the local state contests which set up the party life and party interest. It is the state organization which provides the sinecure of war and content of the parties' campaign. It is the combined efforts of the state organizations which determine and decide principles and policies for which the party stands. This party organization which makes it possible for electors to combine and jointly debate, discuss and vote out those principles which they believe to be for the best interest of the nation, and which best meet the needs and demands of the people.

A party platform is the creation of a great number of people setting forth what they believe should be enacted into law; against this non-partisanship offers the promise of some ambitious office-seeker who will make any promise to obtain political power and who may not be able to carry out his promises even if he desired to, after getting into office. In partisanship you have the pledge of the people with power and organization to carry it out. In non-partisanship you have the promise of the individual out that power. In partisanship members of the party can meet in convention and publicly discuss and vote upon measures. In non-partisanship this cannot be done, and no one will know who the non-partisan will do what promises he will secretly make, or what concealed power or influence will furnish him funds for his campaign and direct his actions if elected. In non-partisanship the people do not and cannot select the candidate. They will have to vote for the man who announces himself as a candidate, but they cannot make a man become a candidate against his will. A party can choose its candidate and he will be responsible to the party and the party will be his sponsor. A non-partisan candidate having no political party to look to for support, will naturally seek strength from any class, sect, or organization that he may be able to get, and in doing this support he will make secret promises to carry the wishes of those who give it. This will happen to one who cannot prevent it.

WHO IS TO BLAME?

SCIENTIFIC REASONS FOR WAR MENACE

Admiral Bradley A. Fiske, United States Navy, in an article in the North American Review for October, outlines scientific reasons for the danger of war ever present. He points out that the danger has been a factor in the foreign life of every state and independent tribe from the beginning of history to the present time. The following extracts from his statement:

The armed force in every State, he says, Admiral Fiske, "has had no continuous existence always, but it has been a potential readiness, if not a continuous employment; and the greatest change in the mutual relations of nations has been brought about by the victory of the armed force of one state over the armed force of another state. This does mean that the fundamental causes of the changes have been physical, for they have been psychological, and have been so profound and so complex as to be beyond analysis; but it does mean that the physical and immediate instrument producing the changes has been physical force—that physical force and physical courage, acting in conjunction, of which the conjunction was the ultimate expression, have always been the most potent elements in the dealings of nations with each other."

Admiral Fiske then asks the question, "What chance toward peace is there now?" and he answers "No." "On the contrary," he continues, "war

city to arrest all persons guilty of violating the state law and the city ordinance respecting expectation on streets, in street cars, stations and other public places. Attention has been repeatedly called to the serious menace which this disgusting habit offers to the safety and health of the community, particularly to the children, who more easily contract typhoid fever. Thousands of children are daily facing a wholly unnecessary danger. The members of this city are a good deal disturbed and distressed over the conditions which are permitted to exist in our streets. If we may judge from the scores of letters which The Tribune has received since it printed a large number of views and the spitting evil last week.

Visitors are still coming in considerable numbers to Oakland, and it is the desire of all good citizens that the city shall make a pleasant and abiding impression upon the stranger within its gates. Among those who have complained bitterly of the filthy condition of our street corners, owing to the promiscuous spitting, are some of the self-same visitors. It would seem that there ought to be enough public spirit, enough consideration for the welfare of Oakland on the part of its police, to lead them to arrest offenders who violate the anti-spitting law.

If the chief of police cannot or will not enforce this law, he need not be surprised if the people of this city begin to ask some very pointed and unpleasant questions. Must we have another chief of police?

SLANDERING THE JAPANESE GOVERNMENT.

One of the San Francisco papers published a second installment on Sunday last of the translation from a book entitled "The War Between Japan and America." The editor of the paper called the author of the book "the Japanese Bernhardi" and said the book was published in June, 1913, under the auspices of a very influential society in Japan known as the "National Defense Association."

In the editorial comment it is stated that "had the book been written by some bellicose anti-American Japanese, it would still be worthy of perusal as reflecting, without doubt, a limited viewpoint. But when it is considered that it is written not by one writer, but by a very powerful society in Japan known as the National Defense Association, and that naval officers, army officers, cabinet and government officers are members of this society; that its president is now Count Okuma, the premier of Japan, and that its last president was the ex-premier, Count Yamamoto, the very great significance and importance of it cannot be overlooked or minimized." If this be the case, certainly we cannot overlook this book, for these names give it all the prestige of a declaration of governmental purpose.

A mere glance, however, at the evidently twisted translation, which appears in the Examiner makes it evident that these men could not have had anything to do with the book. They are not capable of such contemptible and slanderous speech. The book was written by some cheap, anonymous Japanese jingoist for the purpose of appealing to the sensation lovers in his own country and abroad. This ought to be perfectly well known to important newspapers in this country, and we are surprised, in view of the fact that the character of this work has been pointed out by the Japanese Consul General in San Francisco, that a paper of intelligence and wide circulation should give currency to it. Several Americans, who are thoroughly familiar with Japan and the Japanese language and literature, have informed The Tribune that this trouble-making book which is being published by one of our San Francisco contemporaries has no standing whatever in Japan and that no person of repute, so far as they know, has ever given it countenance or has had anything to do with it.

Upon investigation we find that there is no such society in Japan as the "National Defense Association," nor is there any organization of similar character. Doubtless the author of the book invented the name to give weight to his publication. Concerning the author nothing is known, and the fact that he was forced to hide his identity is on its face a rather significant fact in this connection. We know the Japanese government well enough to say that had he boldly printed his name on the title page he would today be suffering punishment for this slander behind prison doors, where it would seem proper to place many an American of similar type.

The translator of the book is one Lawrence Mott, a person of wandering disposition, and inclined to make trouble. He has resided in Japan not longer than two years, and it is improbable that in so short a time he could have mastered the Japanese language sufficiently to translate this book.

The Japanese government has acted very promptly in denouncing this publication which is being retailed in a sensational way to readers on this coast, and we are glad to give further circulation to the truth regarding it.

It is extremely unfortunate that there should be, on the part of some newspapers, so little consideration for international sensibilities and the obligations of international courtesy. Japan is exerting every possible endeavor to maintain not only peaceful but entirely friendly relations with this country. She has taken no official action in the last fifteen or twenty years to which we could reasonably object. The giving of offense has been on the side of the United States; and it seems to us the least we can decently do, if we really want peace and are not hypocrites in our clamorings for it, is to treat the Japanese people and government with at least common courtesy.

Rear Admiral Fiske Does Not Expect Civilization to Divert Nations From Path Heretofore Followed—War Recognized As Most Potent Method.

It is recognized as the most potent method still; the prominence of military matters is greater than ever before; at no time in the past has interest in war been so keen as at the present, or the expenditure of blood and money been so prodigious; at no time before has war so thoroughly engaged the intellect and energy of mankind. In other words, the trend of the nations has been toward a clearer recognition of the efficacy of military power, and an increasing use of the instrumentality of war.

"At the present day, as in the past, it is recognized that life is a man's most valuable possession, and that consequently the most effective force to bring to bear upon a man is a threat against his life. It is for this reason that the state threatens death for murder, while to discourage lesser crimes than murder, threats of forcible imprisonment or corporal punishment are employed; the experience of men having shown abundantly that the threat of physical force—not moral, mental, or spiritual—has been the most effective and is the most effective still."

"This may seem a sad saying. Certainly it is not a flattering one. But experience shows the danger of believing flattery—and common sense tells us that it is as dangerous for nations to believe flattery as for individuals. The demagogue flatters the crowd, and

FOR SANITATION.

To the Editor of The Tribune:
The article written by Mr. Francis D. The Tribune of the 10th inst., on the "back yard farm" nuisance is worthy of any one who has this city at heart, to fear in mind and if our business men had the "back yard" as he says, these flies, rats, and a disease breeding fowl yards, in other words, garbage dumps would have gone years ago. The trouble is that we have not enough business men who will take the real welfare of Oakland and its future at heart. The many business men who sleep in Oakland virtually live in San Francisco and build up a city where these dirty dumps do not exist within its limits. If that element did business on this side, we wouldn't be hearing these complaints continually put before our officials. They would be far-seeing enough men to grasp the situation at once and force them to the outskirts. Some of your small real estate men are one class who encourage this filthy annoyance of advertising "nice place for chickens, etc." Do you ever see advertisements of that nature in San Francisco? No, that element seeking such stock to this side of the bay, where they can buy their pigs, and where they want it. Furthermore, half of them are not property owners, but have the privilege of the country and city combined at the expense of those who are paying the taxes.

"We have a board of health with nine city automobiles, I believe, at their disposal, and we only know of such a department existing, when a dog happens to bite someone or a stray person found with a contagious disease; possibly once in six months or a year and then the whole medical fraternity both public and private are out full blast vaccinating against 'germs,' at the same time maintaining or killing healthy beings occasionally with their vaccines. As far as framing sanitary laws to strike at the root of the evil of flies, rats, ants, etc., to urge before our commissioners the passage of same, we wouldn't know such a department existed in the city of Oakland."

The more diseases this evil breeds the more business it creates; hence our appeals must not stand in the way of "business" whether it be political or private. Commissioner Jackson's attention has been called more than once to this matter, but like the subject of "unnecessary noises" seems to be unable to find time to give it attention. The old commissioners have heard of these "back yard farm" complaints both by personal appeals and written communications dozens of times since they have been in office, but all they ever did was to put a twenty foot limit on them from an occupied dwelling; as if that would exterminate these insects. The continual practice of the owners burning the offal from these coops and houses is sufficient in itself to turn the stomach of an ostrich. It shows conclusively that public officials, who turn a deaf ear to these continual complaints from our citizens were never raised in a large sanitary city.

Those who wish to see Oakland a city worth living in and comparable to most others of its size, are waiting patiently to see our officials wake up, and if they can't give us better conditions than other cities, to give us at least as good. Lack of time and indifference can't last forever as an excuse.

F. W. HUNTER.

He left Oakland four weeks ago to explore the Yosemite Valley, and, having done that, he has now started on his return journey. Mr. Clough is accompanied by his wife and they have been doing the valley with a mule team and a tent. Several half-breath escapes have fallen to the lot of the camping party. On one occasion four daring brigands lined up in front of the caravan and made imperious demands on Mrs. Clough, who was driving. She took them for Yosemite park officials asking for toll and paid them what they asked.

WHEN IS A WILD DUCK?

T. Gilbert Pearson, national authority on game birds has got the gourmards of the East guessing by his declaration that half the canvasback ducks for which the wealthy epicures are paying \$7 to \$12 a piece for are merely typographical errors on the bill of fare. Privately he has confessed to some of the bird sharks that most of the "wild ducks" on the hotel menu were raised in a yard and a pond with a fence around it. He positively defies anybody to tell the difference when the waiter brings them in.

Just because a wild duck is wild is not reason, Pearson says, why it should taste any better than a "tame" duck. He has abandoned the wild game and settled down into a plain, garden variety, business-like duck. He says that men are making money raising "wild ducks" and that the National Audubon Society, of which he is secretary, is encouraging the industry as a means of preserving the game.

THE NATION'S CENTENARIANS.

Serbia, according to statistics printed in England, is particularly the country of centenarians. In that land, one man in every 250 has lived to be 100 years old, the total male centenarian population of Serbia being 575.

Ireland ranks next in the longevity list. In the Emerald Isle, out of every 1320 of population, there is one centenarian, the total number of centenarians being 375.

Out of every 43,000 Spaniards one is a centenarian. Norway has twenty-three centenarians, or one in about 56,000. England, Scotland and Wales have about one centenarian to every 117,000 of population.

France has 213 centenarians, or one in 150,750. Sweden ranks seventh with twenty only, or one in 250,000. Germany has one in 762,000. Denmark only claims two, or less than one to 1,000,000 of its population. And Switzerland, with all its reputed healthfulness, seems not to possess a single centenarian.

PREPARATION FOR HYSTERIA SCORED

Peace Delegates Declare It Is Apt to Overemphasize War Peril.

SAN FRANCISCO, Oct. 12.—The question of preparation for war had its session before the International Peace Conference, at this morning's meeting of that organization at the Fairmont hotel. The anti-war speakers were in evidence. Several speakers participated in the discussion of the question of preparation for war. It was pointed out that any preparation for war is apt to overemphasize the war peril. A preliminary report of the committee on preparation for war was made. The committee was organized by Judge W. W. Morrow presiding, the question of preparation for war was discussed. The committee was organized by Judge W. W. Morrow presiding, the question of preparation for war was discussed. UNION BY RELIGION. A world religion, a religion including the truth of all religions and excluding all patriotic, national and racial bias, was declared to be a prime requisite for world peace by the anti-war speakers at Washington. The speaker said that the world must be united by a religion that is not based on race or nationality. MUST COMBAT IDEALS. Miss Christy McMillan, London, England, secretary of the International Committee of Women for Permanent Peace, said the present war was a war of ideas. Each nation was imbued with the idea that it was fighting for justice and liberty. These ideas must be combated and overturned by other ideas and it was the duty of neutrals to undertake the task of overturning them.

New Wireless Can Be 'Hidden' Invention Overcomes Last Obstacle in War

By Associated Press. WASHINGTON, Oct. 12.—Sending of radiograms by vessels at sea without revealing the approximate location of the ship, a problem which has confronted naval strategists since the discovery of wireless communication—virtually has been accomplished. Experiments of this order, made by the "enemy" divisions of the Atlantic fleet during the recent war game, were said by naval officials today to have been highly satisfactory. During the time the two forces were engaged in the maneuvers, one having to attack the coast and the other to defend it, the vessels in constant communication with the navy yards and supply stations ashore, but neither force was able to determine the location of the other by use of the wireless. The messages were disguised by means known only to the navy department, and for the first time in the history of the war maneuvers they gave the vessels intercepting them no indication as to where they came from or what force of war length had been used in transmission.

Ordinarily, naval officers say, an experienced operator can estimate the location or proximity of a vessel by listening to or recording messages it is sending. This feature of wireless communication has long been realized as a danger to a navy in time of war and means to combat it have long been sought.

ALL CHICAGO AGAIN DEFIED BY SQUATTERS. CHICAGO, Oct. 12.—Captain George Wellington Streeter, who has held the "destrict of Lake Michigan" against all comers for thirty years, is in open war again with the authorities. Detective George Cudmore was shot in the shoulder today by the captain's aged wife, Maria, when he called at the squatter's shack to serve a warrant charging selling liquor without a license. The wound was slight. Streeter was arrested. Mrs. Streeter and her daughter fled to the federal building, where they were arrested after they had defied the police for hours.

MANY SHIPS OF WAR IN BUDGET

WASHINGTON, Oct. 12.—Fifteen to twenty fighting ships of the dreadnaught and battle cruiser type, with a proportionate number of sea-going submarines, coast submarines, scout cruisers, destroyers and auxiliaries—enough to make a new American fleet—is contemplated by Secretary Daniels' recommendations as a five year building program for the United States navy. President Wilson probably will fix the number of ships to be built. The navy department has discussed informally the needs of the navy and are agreed that in order to be adequately prepared for defense the program for building a fleet must be almost doubled in the next five years. With the addition of many of the latest type of fast and powerful fighting craft.

Details as to numbers have not yet been fixed. Worked out, but the idea of fixing a ratio for a continuing program over a period of five years is the basic principle upon which the general board of the navy and Secretary Daniels now are planning their recommendations. The program for building a fleet must be almost doubled in the next five years. With the addition of many of the latest type of fast and powerful fighting craft.

NEW MEN NEEDED. An important part of the program, too, is a proposal for the increase in personnel. Appropriation for at least 500 additional men will be asked for this year to make up present deficiencies. An adequate number will be sought to man the new ships built in the five year period.

THE total cost of the proposed program for the first year, according to present plans, is estimated at nearly \$24,000,000. It is estimated that the navy will have a fleet of 100 ships in 1920. The program for building a fleet must be almost doubled in the next five years. With the addition of many of the latest type of fast and powerful fighting craft.

Justice 'Stumped' by German Name Steamship Line Title Ends in Rumble

WASHINGTON, Oct. 12.—The title of the German steamship line, Hamburg-Amerikanische Packet-Fahrt Actien-Gesellschaft, will go down in history as too large a mouthful for the chief justice of the United States to pronounce. A Sherman anti-trust suit against this and other steamship companies was to have been argued today in the Supreme Court. When chief justice was called the cases for argument at the opening of court this week he scarcely had gotten over the first hyphen before he began to stumble and slur in his pronunciation. He finished poorly. Profound by his expression, the second time he had to read the name of the company he substituted a handy "etc." for most of the words.

"HONOR" PLAN IS CALLED NECESSITY

"Centralization in Social Matters" was the broad topic under which prominent speakers addressed the convention of the American Prison Association, today were heard in suggestions for a number of changes in the present system of prison, probation and protective work. Part of the topics dealt with were more in the line of social service than in prison operation proper, this being declared, however, in line with the work of the association through the fact that the two branches are so closely related to each other.

The sessions opened this morning with the meeting of the chaplains, during which topics of general interest along the line of religious work in prisons were considered. Rev. A. J. Patrick of the Illinois prison, was one of the principal speakers, and Rev. F. O. Reed of Columbus, O., also spoke.

EXPLAINS SYSTEM. Dr. Lindley thought that the slow growth of the centralized authority in many states was due to the opposition of the various boards in charge of the several institutions, the proper information concerning the system thus being kept from the state legislatures. He reinforced his arguments by a lengthy history of the Wisconsin board and showed how its powers had developed. Newark, N. J., rendered a report on the committee of statistics, which went into detail on the systems now in vogue in this country.

IS WORTH EFFORT. "To bring about this required reform in the collection of American statistics of crime and criminals," said Dr. Hoffman, "may take years, but the effort will be well worth the while. In view of the great practical value of the results. There can be no doubt that the conditions of lawlessness and delinquency in this country are alarming, and that the tendency is in the wrong direction. The best illustration in support of this conclusion is the statistics of deaths from homicide in American cities, which show a rate far in excess at the present time of the rate prevailing twenty years ago."

Indicted for Sale of Liquor at Anchorage. SEWARD, Alaska, Oct. 12.—Ten owners of lots at Anchorage, the new government town at construction headquarters of the Alaska railway, have been indicted by the federal grand jury at Valdez, charged with selling liquor, according to word received here. Under a clause inserted in the deeds issued by the land office the lots will be forfeited to the government if the owners are convicted. When the lots were sold the government was examining and planning the sale of liquor would not be permitted on the premises, under penalty of forfeiture. It is alleged that this stipulation has been ignored at the new town, which has grown rapidly, and that saloons and gambling houses have been conducted openly for several weeks. The indictments at Valdez have caused consternation among scores of Anchorage property owners, who fear confiscation of their holdings for violation of the stipulation.

WRIGHT SELLS PLANE PLANT INTEREST

Will Become Consulting Engineer for New Syndicate Being Formed.

NEW YORK, Oct. 12.—Orville Wright has sold his interest in the Wright Aeroplane Company at Dayton, O., to a syndicate consisting of William B. Thompson, August P. Wiggins, president of the Chase National Bank of New York, and T. Frank Manville of the H. W. Johnson-Manville Company, according to announcement today. The Wright Company, which controls all of the patents on aeroplanes secured by Orville Wright and his brother, the late Wilbur Wright, is capitalized at \$1,000,000, of which \$350,000 is outstanding. Orville Wright owns 97 per cent of the outstanding stock. The purchase price could not be ascertained. It was learned that Orville Wright, although disposing of his entire interest in the aeroplane company, will become consulting engineer of a new aeroplane company, which the syndicate will form. It was also stated that Wright will be a stockholder in the new company.

RUNAWAY TEAM WORKS HAVOC AT BIG SALE

FRESNO, Oct. 13 — Women bargain hunters fled in terror from the counters where the most of the sales were in progress today, when a two-story main entrance to a furniture store "burst" through two large plateglass windows in the Haystack department store on Tenth street. Before entering the store the buyers saw a large explosion in the window center of the city.

HAZING TO END.
ANNAPOLIS, Md., Oct. 15.—Action taken by the United States Coast and Geodetic Survey today to end hazing by midshipmen at the Naval Academy, according to statements of officials of these classes. It is believed no formal resolution was passed, but midshipmen acted in such a way as to make it clear that hazing against freshmen would be frowned upon and deliberate sentiment of the student body and incur its displeasure.

COLLEGE MAN WINS BRIDE HARRIET BRIDGEN IS WED

**Service Quietly Read
at Home of Girl's
Parents**

BERKELEY, Oct. 13.—A quiet home wedding in the presence of immediate relatives marked the culmination of an other campus romance last evening, when Miss Harriet Bridgen, daughter of Mr. and Mrs. Edward J. Bridgen of 2222 McKinley street, became the bride of George Gardner Pierce, a graduate of the University of California with the class of 1915.

The marriage service was read by Dr. S. D. Bull, pastor of the Trinity Methodist church. The bride was attended by her sister, Miss Alice Bridgen, as bridesmaid, and the groom was escorted by his brother, Mr. George W. Pierce. The ceremony was a quietly intimate affair, with music by Mrs. Joseph L. Morrill with a violin obligato by Mrs. L. K. Rice.

The bride is a member of the Phi Kappa Phi honor society, and the groom is a member of the Phi Kappa Phi honor society. The bride is a member of the Phi Kappa Phi honor society, and the groom is a member of the Phi Kappa Phi honor society.

**SPECIAL TRAINING
IS NOW OFFERED**

BERKELEY, Oct. 13.—To supply the need for methods courses in commercial subjects, the University of California will begin this week in Oakland and San Francisco the establishment of the first of a series of special courses for students who wish to become commercial high school teachers. "Methods of Teaching Stenography," the first course to be given will start Wednesday, October 14, at 7 p. m., in room 13, Technical high school.

Clyde Blanchard, formerly principal of the standard commercial school exhibit at the Panama-Pacific International Exposition, is in charge of this new undertaking. The first course will consist of a series of fifteen lectures, one each week, on the following subjects: Stenography, Bookkeeping, Typewriting, and the use of the typewriter. The course is designed to give students a practical knowledge of the methods of teaching these subjects, and to give them a chance to observe the work of experienced teachers.

GIRL HISTRONS IN BALL BATTLE

BERKELEY, Oct. 13.—Chad in mid-day blouses and ruffled skirts, the fair members of the cast of "Prunella" and "Keeping It Dark," two first college productions, battled for supremacy in the ball battle which was the feature of the evening's entertainment. The girls, who were dressed in elaborate costumes, danced with their partners in a series of elaborate figures. The ball battle was a popular feature of the evening, and the girls were well received by the audience.

LEARNING BY MAIL TO TICKLE PALATES

BERKELEY, Oct. 13.—Housewives of this state are taking advantage of the opportunity offered by the recent extension department of the University of California and learning to cook by mail. What Dyspeptics Should Eat

Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity, therefore, stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are tired of eating a miserable, unpalatable, and unwholesome diet, should try a meal of any food or foods in moderate amount, taken immediately afterwards a teaspoonful of bicarbonate of soda in a little hot or cold water. This will neutralize any acid which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Bland food is not a cure, it is only a temporary relief. The acid which causes the trouble, if not removed, will continue to produce its effect. A little bicarbonate of soda, taken at your next meal, will take some of the acid out of your system, and will give you a more comfortable feeling. Advertisement.

WARNING CALLED AGAINST RAGGING

**College Writer Says Limit of
Decency Is Already
Surpassed.**

BERKELEY, Oct. 13.—Declaring that the modern ballroom dances are rapidly approaching the limit of decency and that the jocular innocence of other days is in danger of complete eclipse, Joseph K. Wadsworth, editor of "The Student," a member of the Pan-Hellenic Association, is adding to the school authorities in the attempt to abolish them. Wadsworth, a member of the 1917 class of the University of California, in an article in the current issue of "The Student," a campus publication, declares that the modern ballroom dances are rapidly approaching the limit of decency and that the jocular innocence of other days is in danger of complete eclipse.

CAN YOU WRITE YOUR OWN NAME?
What Is It Worth to You?

Have you ever thought what an asset, in time of need, it would mean to you to have an endorsement for the work of a dependable loan company such as the CENTRAL LOAN, where you could go and get any amount of money from \$10 to \$5000 just on your signature and your promise to pay? Think it over, then come and let us tell you more about our plan of loaning money to housekeepers of Alameda county.

Ladies paying allowances or other income at home need not hesitate to call on us. We are making confidential loans every day and when we say confidential we mean that we make no inquiry of your friends or relatives, or

Victim of Anthrax Fighting Off Death

NEW YORK Oct. 27—George J.
Stacopio was still fighting for his life
today in a New York hospital against the
slowly spreading disease of arteriosclerosis,
from which no human being affected
can escape. He was a doctor who was
recognized as one of the world's leading
authorities on the disease.

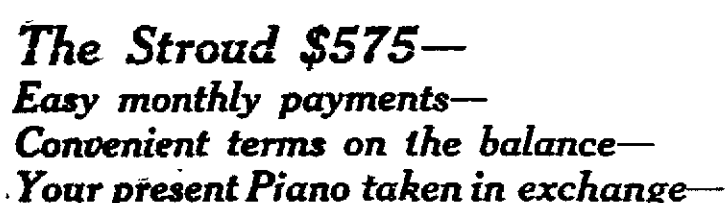

His fight against the deadly disease had
been going on since he was a young man at
his medical school days in New York City.

heating stoves*

And it's just as well to be prepared, have the heating stove up and ready when the first cold snap comes. Then you are comfortable. They are just as low now as they will be later in the season. We show all sizes Wood heaters a few in the basement.

¶ The STROUD is one of the five PIANOLA PIANOS (made by the Aeolian Company), and contains all the remarkable exclusive and patented features of the higher-priced styles.

¶ The STROUD PIANOLA contains the wonderful METROSTYLE, the device for controlling tempo and imparting the correct interpretation. The device consists of a red line marked on the roll and a movable pointer on the instrument. The marking was made by a master musician as the composition should be played. Simply follow the red line with the Metrostyle pointer, and, measure by measure, the selection is played with the correct tempo and the proper interpretation.

¶ The STROUD PIANOLA possesses an exceptionally full and melodious tone, a quick and correct action; the case of mahogany or oak is the very latest design. As a PIANO the merits of the STROUD claim the admiration of hundreds of well-known musicians.

Lime Starvation Causes Tuberculosis

In the Medical Record (New York) of December 18, 1902, Dr. John F. Russell says: "The condition which is recognized as preceding the active development of cancer is due to malnutrition. It is characterized as due to lime starvation." Among inorganic substances lime salts appear to be of special physiological importance. "but the salts are not in organic combination, and it is difficult for the cells to appropriate them for food." Tears of widespread use confirm our belief that the success of Eckman's Alteration in Cancer is due to the large amount of contained lime, in such combination with other valuable ingredients as to be easily appropriated by the cells.

Doubtless this has had much to do with the success of the treatment, which appears to have yielded to it. As it contains no opiate, narcotics or habit-forming drugs, it is safe to try.
